IBEC

Institute for Bioengineering of Catalonia   HR EXCELLENCE IN RESEARCH

CERTIFICADO DE ASISTENCIA

expedido a favor de

Aishwarya Mellalakari

quien ha participado con aprovechamiento en el Workshop

Image creation and photographic edition with Affinity Designer and Affinity Photo

Impartida desde el 22-03-2021 al 24-03-2021

6

RESPONSABLE DE FORMACIÓN   24-03-2021

IBEC
Institute for Bioengineering of Catalonia

Fdo: Carolina Marí

Contenido del curso:

Early-stage researchers should be able to create and edit their scientific posters and presentations autonomously, to archiving skills of user interface of an image creating and editing software, creating texts, diagrams from scratch, to illustrate complex concepts and processes. Researchers should be able to create and edit their graphic content autonomously, seeking to optimize them in terms of clarity and quality; how to work with images to show or print them efficiently, maintaining the maximum level of quality and an optimal workflow.

Training content:

Characteristics of digital images.
Why do they look so bad when printing and other ...
File formats and uses:jpg / png / pdf / bmp / tiff
Affinity Photo interface: Main Menu, panels and tools.
Document measures. On screen and for printing.
Edit images and graphics from other programs.
How do I import it?
Crop an image
Scale an image to a specific size
Composition of images from pieces of other images
Transformations applied to many images at once (document stacks)
Add text, special characters, and basic shapes
Easy image editing (brightness, color, sharpness) and filters / effects
Save editable documents.
Export print optimized artwork (quality)
Export artwork optimized for on-screen presentations (loading speed)
Exercises: Composition exercise/Editing exercise/Trimming exercise
